## FOR IMMEDIATE RELEASE:

# GO WITH THE FLOW IN CUTTING EDGE STYLE!

## *Introducing Aqueduct—A Truly Innovative Faucet from Watermark Designs*

(Spring Creek, New York, January 2005) A rare treasure in a sea of look-alike faucets, the Aqueduct widespread style by Watermark Designs was inspired by a passion for sleek and unique lines and the beauty of flowing water.

The hybrid design features silver and gold in an artfully cut and layered profile. In tune with the tastes of the modern consumer with an appreciation for classic finishes, Aqueduct is sculpted to reveal water as it flows for a truly unique effect.

The open-spout's gold and silver layers are graduated and, when water flows, reminiscent of a rippling brook. More than a utilitarian faucet, Aqueduct is the ideal centerpiece for creating a spa-inspired bath, where form and function reign supreme.

The Aqueduct widespread style, like all Watermark faucets, provides a lifetime warranty on valves and finishes. It lists between \$1,044 and \$1,363 depending on the finish and Watermark offers 35 finishes, allowing consumers to create a variety of different looks.

Consumers are also assured a cohesive look as the Aqueduct widespread faucet can be completely coordinated with matching tub and shower sets, bath accessories, light fixtures, mirrors, grab bars and slide bars. And, like most of Watermark's bath faucets, Aqueduct is also available in a kitchen faucet.

For more information on the Aqueduct please contact Watermark at 1-800-842-7277 or visit our website at [www.watermark-designs.com](http://www.watermark-designs.com).
