## FOR IMMEDIATE RELEASE:

## VISIONS OF VENICE

*Close your eyes and allow Watermark Designs' Venetian faucet to take you on a romantic journey down the Grand Canal.*

(Spring Creek, New York, July 2005) Elegant with a touch of opulence, the Venetian faucet from Watermark Designs exudes Old World artistry that calls to mind Venetian waterfront architecture. Whatever your vision—be it Italian Renaissance, Byzantine, or Italian Gothic—the Venetian summons the feel in a bath that inspires imagination.

Venetian's signature design featured here in a satin gold finish with intricately cut Austrian crystal handles could have been snatched directly from a Venetian Gothic palace. Inspired by a lavish era when bath faucets were ornamented in solid gold, the Venetian design shimmers even in the eye of those with the most discriminating taste.

Style possibilities number many with Watermark's Venetian collection. You choose the finish and select the faucet and handle style that creates your journey. Available in 35 rich finishes with handles offered in several interchangeable styles, the breathtaking Venetian faucet design promotes individualism. The featured Austrian-cut crystal handle accompanies another crystal style, in addition to marble designs in Cordoba black, Positano grey, and Ferrara white.

With a complete line of coordinating bath accessories including towel bars, grab bars, shower systems, and Roman tub sets, your Venetian journey is only steps away. The Venetian faucet retails from \$476 to \$1,081, depending on finish. All Watermark faucets are backed by a lifetime warranty on valves and finishes.

For more information on the Venetian faucet or any Watermark Designs product, call 1-800-842-7277 or visit [www.watermark-designs.com](http://www.watermark-designs.com).
