## FOR IMMEDIATE RELEASE:

# NEO MINIMAL FIXTURE WILL SUIT YOU TO A "T"!

*Titanium Watermark Faucet Features New Technology.*

(Spring Creek, New York, June 29, 2006) Housed in a sleek casing with an advanced titanium mechanism, the unique Titanium Series 22 Faucets from Watermark Designs provide high-tech one-touch functionality for your bath with a remarkable new technology – hydroprogressive engineering. This new type of engineering allows the faucet design to be ultra-minimal, which has never been possible before, that puts this faucet in the spotlight as today's bathroom continues its evolution into a futuristic and relaxing spa.

Those with the most discriminating taste will appreciate the high level of performance, aesthetic form and uncompromising quality of the Titanium 22 Series. Designed for the ultimate user experience, just the slightest movement gets you into the flow of water, as the handle is integrated into the body of the fixture itself rather than sticking out from the side. Two handle options are available with this model, one knurled and one with a lever. Applying American refinement to rich Italian design and artistic sensibility, the master craftsmen at Watermark have again created the latest bath industry innovation.

There are also 18 different Titanium Series combinations of lavatory deck mount faucets, which includes 6 different spouts, 2 bases (short and tall) and 2 handle styles. Also available is a free standing floor mount lavatory faucets and free-standing shower faucets which are rather unique items. All of these are available in 35 finishes, not just chrome and nickel like other Italian contemporary designs. And as always these faucets comes with Watermark Designs' lifetime warranty on valves and finishes.

# WATERMARK

DESIGN INSPIRATIONS

Minimalism can truly be redefined with the one-touch Titanium Series 22 Faucet mixer providing the opportunity to create an environment tailored to your needs, both decorative and technological. Consumers are assured a cohesive look as the Watermark Titanium Series can be completely harmonized with matching tub and shower sets, bath accessories, light fixtures, mirrors, grab bars and slide bars. Watermark's philosophy is to offer design concepts for the entire bathroom. When coordinated with Watermark's matching bath products, the only limitation is your imagination. The Watermark Titanium Series 22 Faucet ranges in price from \$875 to \$1521 depending on finish.

For more information on the Titanium Series 22 Faucet or any of Watermark's other designs, please contact Watermark at 1-800-842-7277 or visit our website at [www.watermark-designs.com](http://www.watermark-designs.com).
