

BROOKLYN-BASED WATERMARK AWARDED COMPANY OF THE MONTH BY NYIRN.

[Brooklyn, New York — April 15, 2009] Watermark Designs is proud to announce it was MADE IN NYC Company of the Month, per the NYIRN New York Industrial Retention Network.

This is the second award the company has received since relocating just over a year ago to their new Brooklyn facility. The first award was Manufacturer of the Year by the Local Development Corp. of New York. The New York Industrial Retention Network (NYIRN) is a citywide economic development organization that seeks to promote a diverse economy that provides entrepreneurial and employment opportunities for all New Yorkers by strengthening New York City's manufacturing sector based on principles of economic and environmental justice and sustainability.

"We are delighted to be honored with this award that encompasses over 7,000 manufacturing companies in NYC, stated Avi Abel president of Watermark. "We are excited to be one of the businesses that plays a role in the city's diversified economy. Our new Brooklyn facility and our dedicated green mission have helped to facilitate our success and we thank the NYIRN for this great acknowledgement."

The New York Industrial Retention Network (NYIRN) is a city-wide not-for-profit organization established in 1997 that seeks to promote a diverse economy that provides economic opportunities for all New Yorkers by strengthening New York City's manufacturing sector, based on principles of economic and environmental justice and sustainability. NYIRN is committed to an open and inclusive process that brings labor, community, business and government together to address policy issues, develop programs and deliver services.

The Made In NYC business-to-business database provides descriptions, links, and contact information for hundreds of products manufactured in New York City.

Manufacturers Association of New York City (MANYC) is a not-for-profit association of New York City manufacturing business owners and other interested parties who have come together to educate the public sector about the important role played by the manufacturing sector in the local economy.
