

WATERMARK . expressions QUICK SHIP PROGRAM

Watermark Designs has launched its new Expressions Program of quick ship product, guaranteed to ship within three business days.

The Expressions Program is comprised of our top nine selling collections in the four most popular finishes. The collections include; contemporary, transitional, and traditional styling. The finishes are; polished chrome, polished nickel, satin nickel, and rustica brass.

Items included in the Expressions program are deck and wall mounted lavatory faucets. Also included are Roman tub sets, bidet sets, 2-valve, 3-valve, pressure balanced, and thermostatic valve shower systems. Lastly, bathroom accessories such as towel bars, paper holders, and robe hooks round out the offering for a complete ensemble of coordinated components.

Some additional highlights of the Expressions Program are the creation of single model numbers for more complex shower systems such as a thermostatic shower system with hand shower on positioning bar, body sprays, and a shower head. Also, the shower head and hand shower included in the program have been upgraded from our previous offering.

All of the product is currently being stocked in our Brooklyn, New York manufacturing facility as well as certain product being warehoused in our California location for even quicker ship times.

Please contact us or your local Watermark representative for our new 42 page catalog and price list. The catalog contains new installation photographs showing the collection in real settings.

In addition to our Expressions quick ship program, all of our special order products are currently shipping within 3 weeks, depending on the finish. Our factory has returned from its summer vacation and we are in full production.

Watermark has once again created additional value for you and your customers by offering exquisite designs, exceptional quality, and now, quicker ship times.
