

FASHIONABLE FUNCTION!

Watermark's New Grab Bar Collection Brings Stylish Stability to the Bathroom!

Grab bars

(Brooklyn, New York – October 22, 2009) The days of institutional grab bars are behind us. Say hello to Watermark Designs' new collection of beautifully crafted grab bars that set new standards for the seamlessly blending of fashion and function.

Watermark designers got it right on both counts here. These grab bars are luxurious accessories that will complement a bathroom's overall design, while at the same time enhancing its accessibility for people of all ages and abilities. Once relegated to hospitals and nursing homes, decorative grab bars have become one of today's hottest trends in residential bathroom design. As always, Watermark leads the way with fashion-forward inspirations that run the design gamut from a traditional look capped with finials to a sleek and sophisticated minimalism.

Watermark grab bars are available in six trims to match Watermark faucets and 35 different finishes, including polished nickel and antique brass. Choose from 12 different sizes with prices ranging from \$247 to \$909.

Grab bars may be configured in a variety of ways to meet the needs of today's multigenerational families – to provide stability and independence in the shower or extra help in getting in and out of the tub. Add accessories such as a hand-held shower or wire basket to convert them into positioning bars for even greater convenience and flexibility. As an added benefit, Watermark grab bars have been tested and approved to meet standards set by the Americans with Disabilities Act.

Watermark grab bars are a great choice for consumers looking for easy ways to add to the value and beauty of their homes. After all, it's not often that a luxury design element offers so much practicality. Let Watermark Designs show you how to bring practical elegance to your bathroom that will be enjoyed for years to come.
